## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed 23 January 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. The two PCT references (Muir and Chambers) have not been received.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Henly (US 6,394,421 B1).

Henly discloses a chain wheel part 103 comprising:

a disk 105 having a central portion 109, a perimeter and a substantially planar peripheral portion (flat area on disc 105) surrounding the central portion between the central portion and the perimeter of the disk.

wherein the planar peripheral portion lies in a plane, wherein the central portion 109 being displaced from the plane;

a plurality of teeth (as seen in Figure 6) adapted to drive a rope, wherein the plurality of teeth extending from the central portion, wherein each of the plurality of teeth not extending to the perimeter of the disk; and

a plurality of spines adapted to drive a chain, wherein the spines being positioned on at least some of the teeth (Figure 6) at an outer most extremity of the teeth, wherein the spines extending down from the central portion across at least a portion of the planar peripheral portion.

In regards to claims 4 and 5, Henly disclose the chain wheel 103 part wherein the spines extend from the central portion across the planar peripheral portion to the perimeter and adjacent the perimeter.

#### *Response to Arguments*

Applicant's arguments filed 23 November 2004 have been fully considered but they are not persuasive. Previously filed claims 1 and 2 have been cancelled and new claims 3-5 are now present. The applicant argues that Henly '421 fails to disclose a plurality of teeth which extend from the central portion or a plurality of spines which extend from at least some of the teeth. The claimed features are clearly seen in Figure 6.

#### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3654

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan H Langdon whose telephone number is (703)-306-5768. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathy Matecki can be reached on (703)-308-2688. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
